Children First Canada

Protecting Children's Rights Through Adult-Child Partnership

Children First Canada (CFC) has a bold and ambitious vision that together we can make Canada the best place in the world for kids to grow up.© This workshop will provide insights and lessons learned on how to develop programs that protect children's rights through child-adult partnership. CFC works directly with young people to share their concerns/opinions, and learn more about political processes and civic engagement. Not only have these frameworks enabled youth with the confidence necessary to take on social challenges, but they have also provided a platform on which minority/underrepresented children - who are often excluded from these discussions - have a voice.
