MODERN-DAY MANAGEMENT PART-TIME TRAINING PROGRAM

ACQUIRE MANAGEMENT TOOLS THAT WILL BENEFIT YOU THROUGHOUT YOUR CAREER!

The Modern-Day Management training program is composed of 9 workshops distributed over 10 days of training covering topics that will allow you to become a more effective manager. The learning activities will give you the opportunity to refine essential leadership competencies and to develop skills that will enrich your professional life.

THIS TRAINING PROGRAM IS DESIGNED FOR:

- Entrepreneurs
- Middle managers
- Team leaders
- Supervisors
- Anyone who aspires to a management position

"I really enjoyed the Modern-Day Management training program for many reasons, but mostly because of the various trainers with a lot of experience, which helped to enrich the program. The contents of the modules were appropriate and touched on the important aspects in the management of a business. After 37 years on the job market, I learned many things that I have already applied. I would recommend this program to all managers and future managers."

*Denise Lagacé Rioux, Executive Director
CBDC Victoria Madawaska South Inc.*

"The Modern-Day Management training program was a very enriching experience for me, both professionally and personally. Thanks to this program, I am better able to understand the realities of sound and effective management, which is a real challenge in the current pandemic context. The group training allowed me to meet a lot of people and to have some very interesting discussions. I was also very impressed by the efficiency of the Continuing Education staff, who greatly contributed to the success of this experience."

*Florian Euzen, Concertation Manager
Société Nationale de l'Acadie (SNA)*
