

THE ADVENTURES OF ENTO-MAN (EPISODE VIII)

TEXT: ANDREW BENNETT

ART: GAËTAN MOREAU

Fruit Fly Entomologist wanted? Polymerase chain reaction? *Schistocerca*! I must stop this heresy!

After a brief metamorphosis, Ento-Man makes his way through the dilapidated factories and tenements of Old Dipteraville...

Hmmm... I smell the sickly odour of fermenting fruit fly media...

Must be careful... This is likely nothing more than a cunningly baited pitfall trap...

Broken microscopes! Burnt entomology texts! Who would do such a thing?

Join Ento-Man next time when he comes supraclypeal area to supraclypeal area with his arch-nemesis Dr. melanogaster!
