Association Conference
June 14–17, 2026, Moncton, NB**

**“Shaping the Future: Creativity and Innovation in Engineering
Education “**

**Registration and submission details will be posted as soon as they become
available.**

➤ A word from the Dean

Gérard Poitras, ing., D.Sc., B.Ed.
Dean/Doyen,
Faculté d'ingénierie

I am pleased to present the Faculty of Engineering as a host for the 2026 Annual Canadian Engineering Education Association Conference. Our faculty has long been recognized for its commitment to academic excellence, innovation, and leadership in engineering education, making it a natural choice for this event. Students frequently express their appreciation for the high-quality teaching, the supportive and welcoming environment, the enriching student life, and the faculty's dedication to their success.

With state-of-the-art facilities, we offer an environment that is ideally suited for this conference. Our faculty staff has successfully hosted numerous national conferences, demonstrating our capacity to organize and deliver high-quality events that engage educators, researchers, and industry leaders alike.

Additionally, our location provides excellent accessibility, accommodations, and a vibrant academic community that will enhance the experience for conference attendees. We are confident that our faculty's expertise and resources will contribute to a highly successful and impactful event.

I look forward to welcoming you to Moncton in June 2026.

➤ Banquet

The conference banquet will be held in the elegant reception hall of the Delta Beauséjour Hotel, located in the heart of downtown Moncton, just minutes from the Université de Moncton and close to many local attractions.
